News

Strengthening Infectious diseases hospitals for IDSP
Implementation of the IHR (2005) calls for an integrated global alert and response system for epidemics and other public health emergencies based on strong national public health systems and capacity

Strengthening laboratory assessments under IDSP
In 2017, India also conducted laboratory assessments at district level to address systems strengthening for health laboratories at district level through adaption of the WHO Laboratory assessment tools

Harmonizing data tools for Influenza
A data management workshop on Influenza was organised at Manipal Centre for Virus Research, Manipal Academy of Higher Education (Manipal University)

Emergency Operations Centres
India is moving ahead in the area of strengthening its emergency operations centers (EoCs) and in 2017, there were several meetings to work out the requirements

Administration

- The 'Administration' menu is provided for the users 'District Surveillance Officer' (DSO) and 'State Surveillance Officer' (SSO)
- Access to some of the administrative functions is also provided to 'P Form' & 'S Form (Desktop)' users related to their health facility under 'User's Menu' – 'Update Facility Details'
- The administrative access under different users' categories is summarized in the table below:

Table 1: User's access to administrative functions

Access to administrative functions

Content Provided by "Integrated Disease Surveillance Programme"

- Buttons are present at bottom as per the user role to 'Request for New Facility' &/or to 'Request for new RRT user'

Request for New Health Facility

- On clicking the button 'Request for New Health Facility' a new web page appears
- All the mandatory (*) information need to be filled in order to request for creation of a 'New Health Facility'

Screenshot 7: Request for New Health Facility 1

- On selecting the 'Access type' a new window appears below asking for the respective users' details

Screenshot 8: Request for New Health Facility 2

Note: This document is being continuously updated. The version number for updated document will be shown on the first page

- 'S Form' access is given only to sub center user & this option get checked automatically by selecting the 'Health Sub Center' under 'Facility Type'
- Once all mandatory (*) details are filled the 'Save' button became functional. One has to click it to submit the request for 'New Health Facility'

Request for New RRT User

- On clicking the button 'Request for New RRT User' a pop-up window titled 'Request for New RRT User By District : XXX' will appear
- One has to fill the necessary details & click the button 'Save' to submit the request

Screenshot 9: Request for New RRT User

Action:

- By clicking on 'Facility Count' number against any 'Facility Type', list of records of this facility appears at the bottom.
- By clicking the 'Action' button, as per user's access role following actions can be taken for the listed facilities:
 - Edit Facility Details – Following updation can be done: Address / Officer in charge & contact details / Mapping of facilities covered under this health facility / Request for new user ID / Request for update of facility details / Validate location on the map
 - Essential Medicines List – updation
 - Emergency Medicines List – updation

- Supplies – updation
- Health Workforce Details – updation
- Health Facility Delete Request – submission of request with mentioning the ‘Reason for deletion’

Additional administrative functions for state level user

- State level user has some additional functions under administration menu:
 - Uses Summary
 - Manage User Accounts

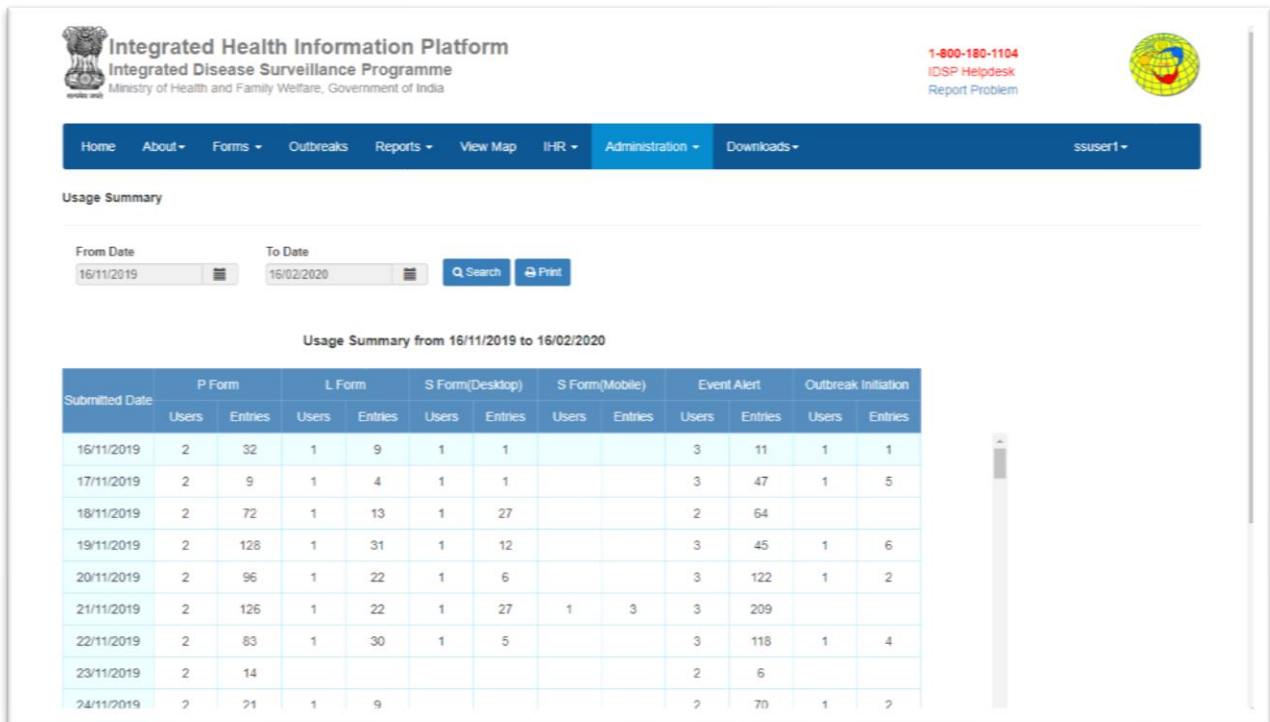

Screenshot 27: Administration Menu - State User

The screenshot displays the IHIP Administration Menu for a State User. The page header includes the logo of the Ministry of Health and Family Welfare, Government of India, and the contact number 1-800-180-1104. The navigation bar shows 'Administration' as the active menu, with a dropdown list containing the following items: Staff Summary, Equipment Summary, Essential Medical Supplies Summary, Manage User Accounts, Manage Health facilities, Login History, Usage Summary, List of Health Facility Update Request, Profile Update Status, and Subcenter Village Mapping. Below the navigation bar, there are three news articles: 'Joint monitoring mission – IDSP', 'Disease reprioritization workshop IDSP', and 'Surveillance standards IDSP'. The 'Usage Summary' function is highlighted in the dropdown menu.

Usage Summary

- This function is available for State level user
- User can see 'Usage Summary' for different type of users for selected time range
- The report displays the 'Number of Users' & 'Number of Entries' for users of 'P Form', 'L Form', 'S Form(Desktop)', 'S Form(Mobile)', 'Event Alert' and 'Outbreak Initiation'
