Here is a breakdown of each submenu:

- i. **My Profile:** This submenu allows the user to update their profile. Upon the first login, it is essential to fill in or update personal details on this page. The user needs to provide the mandatory information (marked with a red asterisk *) and click the 'Update' button to save the changes. Each Yatra Health Center / Facility will have one identified Medical Officer In-charge, serving as the Nodal person for reporting, even if there are multiple Medical Officers on duty.

Forms

Under the "Forms" menu, one form "Yatra Case Form" is available for data entry. Besides this one separate web page 'Yatra Cases Linelisting' available to view the submitted cases and to update the follow-up results, where applicable.

The screenshot displays the Integrated Health Information Platform (IHIP) website. The header includes the logo of the Ministry of Health and Family Welfare, Government of India, and the title "Shri Amarnath Ji Yatra Health Surveillance". A navigation menu is visible with options: Home, About, Forms, Reports, and Resources. A green arrow points to the "Forms" menu. Below the menu, there are four news articles with images and text:

- Joint monitoring mission – IDSP**: Recent monitoring and evaluation of the national disease surveillance programme, IDSP has highlighted that investment into surveillance, laboratories, data analysis and information systems. [Read more](#)
- Disease reprioritization workshop IDSP**: Workshop on reprioritization of diseases under IDSP was organized in collaboration with MoHFW, NCDC and CDC, India Office from 6-7 December 2016 in New Delhi. [Read more](#)
- Influenza strengthening workshop**: A workshop on strengthening Influenza Surveillance was held in Delhi from 4-6 October 2016 in collaboration with Ministry of Health & Family Welfare (MoHFW). [Read more](#)
- Surveillance standards IDSP**: WHO supported the finalization surveillance standards (Minimum Datasets) for diseases under IDSP which were organized in collaboration with NCDC. [Read more](#)

Below the news articles, there are two more sections:

- Strengthening Infectious diseases hospitals for IDSP**: Implementation of the IHR (2005) calls for an integrated global alert and response system for epidemics and other public health emergencies based on strong national public health systems and capacity.
- Strengthening laboratory assessments under IDSP**: In 2017, India also conducted laboratory assessments at district level to address systems strengthening for health laboratories at district level through adaption of the WHO Laboratory assessment tools.

i. Yatra Case Form:

This form must be completed daily by users at every Yatra Health Center for every patient. The web page consists of various components, which are briefly explained in the following screenshot and further detailed in the accompanying text.

Summary of total OPD cases and IPD cases for the day

Health Facility : MAC Nunwan

Total OPD for day 1 Total IPD for day 0

List of Reported Cases

Sl#	Action	Yatri-ID	1.3. Person Name →	2.3. Care Provided	2.4. Primary Health Condition	2.9. Lab test done	2.10. Lab Result diseases(ff +ve)	3.1. Outcome	Remarks
1	Edit	12345122222	Shankar	Referred on initial assessment	Dengue	No			Test
2	Edit	1234512345	Yatri test test	OPD Treatment	AGE/ADD	Yes	Acute Jaundice,Chicken Pox,Chikungunya	Discharged with continuation of Yatra	remarks entered
3	Edit	2023-AY-59	Test	Admitted	Burns	Yes	Chicken Pox	Discharged with continuation of Yatra	TEst
4	Edit	2023-AY-52	Divya	OPD Treatment	Burns	No			ok

List of Death Records

Sl#	Action	Yatri-ID	1.3. Person Name →	2.3. Care Provided	2.4. Primary Health Condition	2.9. Lab test done	2.10. Lab Result diseases(ff +ve)	3.1. Outcome	3.4. Date of Death	3.5. Suspected cause of death	Remarks
1	Edit	Y100	Somesh	Admitted	Acute MI	Yes	Cholera	Death	19/06/2023	Acute MI	remarks entered

Submit Records

- On the top of the page, you will see the name of your Yatra Health Center for which you are performing data entry. If it is correct, you can proceed. If it is incorrect, please contact the District Surveillance Unit for rectification.
- You will also find an "Add Patient" button, which allows you to start entering data for a new case or death. More details about this will be discussed in the next subsection.
- The page also, displays a summary of the "Total OPD cases for the day" and "Total IPD cases for the day." This is auto calculated summary of the submitted records for the days.
- Below, the patient data entry section, two tables are presented: the first table shows the line list of cases, and the second table shows the line list of deaths.
- At the bottom of the page, you will find the "Submit Records" button. Clicking on this button allows you to submit the batch of case records that you have saved or updated.

Now, let's understand the process of entering data for a new case:

- By default, the "Yatri" option is selected. If the patient is a registered traveler for the Amarnath Yatra, click on "Search Yatri ID" and enter the Yatri ID. Clicking on "Get Details" will automatically fetch the patient's details based on their registration ID.
- If the patient is not a traveler for the Amarnath Yatra, click on "Other" to proceed. In that case, you need to fill in the patient's demographic details under the "Patient Details" box, especially the mandatory fields marked with a red asterisk *.
- Once 'Patient Details' is filled, then proceed to fill in the "Clinical Details".

Reports

Now, let's explore the "Reports" section, where you can generate a variety of reports for analysis and monitoring purposes. The screenshot below displays all available reports for users of the Yatra Health Center, including those at the District, State, and National levels who have access to this feature. These reports hold significant importance, especially for the control room team responsible for taking swift action in response to unexpected events, such as a surge in cases of one or more diseases. By utilizing these reports, the control room team can promptly address such situations at an early stage.

- Yatra Form Summary:** The Yatra Form Summary feature provides a comprehensive overview of the data collected through the Yatra Case Form within a specified date range for the health center. Additionally, users at the District, State, and National levels have the ability to delve deeper into the data by narrowing it down to a specific zone or health center. The summary offers insights into the health condition of patients across two age groups (≤ 15 years and > 15 years), including information on cases referred to a higher facility. Furthermore, it presents a gender-wise summary of deaths.

ii. **Yatra Health Conditions Summary:** The Yatra Health Conditions Summary report provides a concise overview of aggregate numbers, date-wise, categorized by health condition, for a selected range of dates. It allows users to modify the zones and health conditions to suit their needs. Report can be drilled down to a particular health condition and up to health facility level. The report also includes a date-wise trend analysis of Outpatient Department (OPD) cases, Inpatient Department (IPD) cases. Additionally, it presents the day-wise trend of health conditions in a bar diagram format and showcases the distribution of all cases through a pie diagram.

iii. Yatra Reporting Status Summary

The reporting status section displays the date-wise reporting status of health facilities across different zones. It provides valuable insights into the number of health facilities that have submitted reports out of the total available facilities. This information assists the control room team in identifying the health facilities that are actively reporting on a daily basis, as well as those that may not be submitting their reports.
